#### GIVE THE FACTS IN BACON CASE

terday from the Governor asking him to

W. Ex Homes received a telegram yesterday from the Governor asking him to give him his recollection of the evidence of facts preved in Bacon's case. Judge Homes heing the trial judge, gave very close attention, to all the evidence, and his statement will be of value to the Governor in adding him in getting at all the facts. I was told by Judge Homes this morning that he was preparing the facts in the case, but in a matter of so much importance he would necessarily have to take time to do so, and with great care. As soon as he could, he would forward the facts to the Governor, which he hopes will be in a few days.

Mr. Goode requests me to say that the News Lender of the 7th instant either misquoted Governor Montague in stating that "the Governor had been informed by Commonwealth's Attorney Goode" that Judge Homes was away, or His Excellency confounded him with some other source of information upon this subject, his first communication to Governor Montague having been a letter malled about 3 o'clock on the evening of September 2d, in which, so far as he can recall, Judge Homes ham was not mentioned, and in which he could not have stated his absence, as he then knew the Judge to be at home, and that all further communication between them unil about 5 o'clock on the evening of the 3d, when, at the Governor's instance, he held an interview with him in Richmond, consisted of a telegram or two, in which the Judge's name does not appear.
